

Home Office Awards Coordinators

Thank you for being a Home Office Awards Coordinator. GAMA International appreciates your efforts in identifying, certifying, and recognizing the industry leaders in your company.

Award Certification

The Home Office Award Coordinator's role is to verify that the commissions reported by your field leaders are correct.

Electronic Filing

To simplify the awards application process, an electronic application is available for your use in submitting your company's award qualifiers. Please note that the electronic awards application is for bulk submissions from the home office only; any individual applying for an award must submit an individual awards application.

- To receive their award, each qualifier must be a 2015 member of GAMA International.
- If your company is applying on behalf of your award qualifiers, the filing fees due must accompany the file when it is submitted to GAMA International. GAMA International cannot bill individuals for their application fees.
- Applicants not in good standing for the 2015 awards will not be processed. To join, please click [here](#). To renew, please click [here](#).

Filing Fees
